[Please RSVP](#) so the hosts will know how many to prepare for. We will send the program address to all who [RSVP](#).

Adam Smith (1723-1790) was a Scottish economist, philosopher and author as well as a moral philosopher, a pioneer of political economy and a key figure during the Scottish Enlightenment, also known as "The Father of Economics" or "The Father of Capitalism".

"It is not from the benevolence of the butcher, the brewer, or the baker that we expect our dinner, but from their regard to their own interest." ~ Adam Smith

Smith laid the foundations of classical free market economic theory. His book *The Wealth of Nations* – considered his magnum opus and the first modern work of economics – was a precursor to the modern academic discipline of economics. In this and other works, he developed the concept of division of labor and expounded upon how rational self-interest and competition can lead to economic prosperity. Smith was controversial in his own day and his theories remain debated in current times. (Source: [Wikipedia](#), May 30, 2019)

ShortTakes Dreams of Flying Taxis

[Tuesday, June 11, 10am-12pm, Manchaca Library](#)

Here's a little history. ShortTakes began early in 2016 and we have met each month at Joe and Pam's house. We have shared many TED talks and similar presentations and many of us have gotten to know each other at a deeper level. This has also helped build a strong south Austin presence for CCV.

We meet on the 2nd Tuesday of each month from 10am-12pm, usually at the Manchaca Library, 5500 Manchaca Rd. In June, Barbara Kaiser will lead a conversation on the TED Talk, "[How Autonomous Flying Taxis Could Change the Way You Travel](#)" by Rodin Lyasoff.
